Device cost applicable at extra charged

*We are building a future without paper*

*By eliminating the 25 millions pieces of paper used by the government each year, we could save enough money to feed 2 million children, approx. 80,000 trees from being cut down daily, and save 32 hours of productivity to give people more time to spend doing what they love*

*Paper and paperboard is expected to grow at an average rate of 7.8% per year which means by 2025 India will be producing 49.0 million a year in this scenario we will eliminate this situation by our **“MY SHIKSHA APP”** technology*

*We strive to become a global paperless software solution company.*

*We are passionate in helping business through innovative technologies to reach and maximize their business ideas.*

*We are building a future without paper in India so our every citizen of India will go for digitalization & paperless culture*
